EVTCC announces

Driver Operator Inspection 1 Exam
will be available beginning May 15.

At the request of the International Association of Fire Chief's Emergency Vehicle Management Section, EVT has developed an exam that is targeted for the driver/operator to perform daily/weekly visual and operational checks that will satisfy the new requirements in Chapter 7 of NFPA 1911 *Standard for Inspection, Maintenance, Testing, and Retirement of In-Service Emergency Vehicles* 2017 edition.

The Driver/Operators are essential to preventive maintenance programs as they are the first step in the process. A good daily/weekly check will increase the safety of the vehicle and result in savings in maintenance costs by pro-actively recognizing potential problems that should be reported to a qualified emergency vehicle technician before they result in breakdowns.

Charlie Miller from the City of Tempe, AZ and David Stover from Sinclair University in Ohio organized Beta Testing in Tempe, Columbus, Dayton, Bellbrook and Washington Twp in the Fall of 2016. The data was analyzed at our validation conference in January. Keith Klassen from Summitt FPD gave a Driver Operator Inspection 1 Preparation class and Flagstaff Regional Training Officer Scott Walton proctored the exam this April. The class was a success. Feedback for the exam has been very positive.

• For the Driver Operator Inspection 1 Learning Objectives and Reference Materials List go to www.evtcc.org, "Exams and Preparation".

• For additional reading see *Fire Apparatus Magazine* article by Christian Koop, April 2017 issue, Volume 22 at <http://www.fireapparatusmagazine.com/articles/print/volume-22/issue-4/departments/apparatus-the-shops/evtcc-announces-new-driver-operator-inspection-certification-exam.html>

EVTCC proudly welcomes

Charles Miller to the EVTCC board of directors

Charlie holds EVT Master Fire and Master Ambulance Certifications. He has been involved in the EVTCC program since 1997 and is a Validation Committee Member. While working for Tempe Fire Rescue Medical Department, AZ, he earned a BS degree in Public Administration at ASU and is an Executive Director of the Arizona Fire Service Mechanics Association. He is married to Kelly, together they have 4 children and live in Desert Hills in a home that Kelly calls the "small house with the LARGE detached garage" where he spends a lot of time with his passion working on all things motorized, while Kelly tends her gardens, her flock of chickens, pack of dogs, and herd of goats. EVTCC is pleased that Charlie has agreed to serve on the board.

EVT Validation Conference

We wish to thank all the participants of the EVT Validation committee who are so generous to spend their valuable time to develop and validate the EVT exams. The Validation Committee includes Master EVT's, manufacturer representatives, industry experts, and educators.
